

Animal Care Austria -- Excellence in Animal Welfare since 2006!

Animal Care Austria is a non-profit animal welfare organisation founded in 2006 by American opera singer, Carol Byers.

This competent Vienna-based, volunteer group has successfully expanded it's work into 6 countries – Austria, Hungary, Romania, Slovakia, Serbia and India. Animal Care Austria's resources and ideas are focused on working with other animal welfare organisations to develop long-term solutions to prevent animal suffering and to increase the awareness of animal welfare. In addition to animal adoption programs, and to the financial support of Care Station shelters, the emphasis which Animal Care Austria places on castration projects, veterinarian scholarships, animal welfare theater school projects, and events to improve the relationship and quality of life between people and animals, has placed Animal Care Austria as a forerunner in animal welfare initiatives in Austria and abroad.
